DRONE TECH EXPO
SAUDI ARABIA 2021
APRIL 19 & 20

7 kg Payload 120 min Flight time 25 kg Max lift weight
BASIC ELECTRIC AUTONOMOUS PROFESSIONAL

Introducing HELIX
THE UNMANNED AIRCRAFT SYSTEM BASED ON AN ELECTRIC HELICOPTER

- SMALL
- POWERFUL
- RELIABLE

SAKAVIK

Load capacity of Sakavik is sufficiently high for cargo transportation. At the same time, it is feasible and cost-effective to deploy it for data collection when extended range is needed.

DRONE TECH EXPO
SAUDI ARABIA 2021
APRIL 19 & 20
WORLD'S FINEST ONLINE TECHNOLOGY EVENT

THIS FULLY AUTONOMOUS DRONE FLIES WITHOUT GPS.

Relying on the computer vision, it detects and avoids obstacles, and identifies safe zones for landing. There are two versions in the Sakavik family: one is tagged **G** for its gasoline engine, and the other is **K** meaning kerosene powered.

Presents: **flytware**
DRONE SOFTWARE SOLUTION FOR WAREHOUSE MANAGEMENT

Organized By: **Equity Vision Consulting**
